

Control[®]**Quality Assurance
in World Format**

The world's most important technical event covering all issues related to industrial quality assurance, namely Control, is held in the high-tech industry city of Stuttgart.

As a pure quality assurance trade fair, Control is unique throughout the world. All international market leaders are on hand. 864 exhibitors from 31 countries presented a comprehensive portfolio of products and services on 564,000 square feet of overall exhibition floor space in 2013.

Innovations and product premieres are developed by the exhibitors for targeted presentation at Control. Roughly 25,000 visitors from 89 countries gathered information at Control 2013, which verifiably resulted in good business for the suppliers. 91% of all visitors are involved in purchasing decisions.

TRAFIME

tranciatura fine metalli s. p. a.

Continua da pagina 1

Polonia, Romania, Ungheria, Tunisia, India, Messico, Russia, Sud Africa e Usa.

Trafime con i suoi due stabilimenti, siti in Italia, è specializzata nella tranciatura di spessori che vanno da 2 mm a 25 mm.

Trafime riesce a lavorare acciai al carbonio fino a 25 mm, acciai inox austenitici fino a 13 mm e ferritici fino a 10 mm.

Trafime si è dotata della più grande pressa esistente al mondo, 1550 tons, e grazie al suo ampio range di potenza nelle presse da 250 tons a 1550 tons offerto, è riuscita a diversificare il suo portafoglio in termini di dimensione di particolari e di tipologia, infatti produce e fornisce particolari a disegno cliente, e le principali classi merceologiche sono: flange per sistemi di scarico, flange per fluidi, piastre di accoppiamento per assali particolari di sicurezza, supporti frenanti, componenti per leverismi sedili.

Trafime inoltre è in grado di fornire particolari finiti con operazioni secondarie, quali rettifiche mono e bi faccia, spazzolature, forature, maschiature, saldature di perni e dadi, inserimento di perni nelle flange, avendo a

disposizione per questa operazione macchine con sistemi automatici di controllo al 100% dei perni e dell'assemblato perno-flangia. Inoltre Trafime fornisce particolari trattati termicamente e rivestiti (es. ZINCATURA E zinconichelatura) servendosi dai migliori fornitori del settore. Vi invitiamo al nostro stand per mostrarvi le nostre competenze e verificare possibilità per nuove collaborazioni.
